

The 3rd Knowledge Management Conference in Organisations - KMO 2008

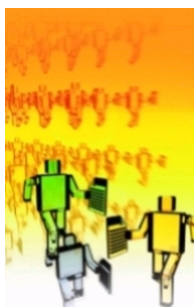

The Challenges of Knowledge Management in Organizations

VAASA (FINLAND) June 24th – 25th 2008

Knowledge has been described as a critical competitive asset of organizations, strategic for their competitive advantage. The third International Conference on Knowledge Management in Organizations (KMO) aims at providing an international forum to present and discuss research streams focused on information and knowledge management issues, as well as to shed light on recent advances knowledge management systems for organizations.

KMO 2008 invites submission of papers both from researchers in academia and industrial practitioners in different topics of knowledge management in organization. Papers describing recent advances in knowledge management in organizations and technologies are especially welcome. The areas of interest include, but are not limited to:

- ICT enabled Knowledge management
- Organizational learning/knowledge development
- Adaptation of KM in organizations
- Networking with knowledge
- Knowledge management in projects
- How to build and maintain viable KM architectures and thriving communities of practice
- Intelligent and ubiquitous KM

- Evaluation of KM
- Design methodology
- Technology to support KM
- Innovation and knowledge management
- Cultural issues in KM
- Extended enterprise and processes
- Mobile KM
- eLearning and KM
- Service science and KM
